

Rancho Las Flores Park

The City of Coachella developed 10 acres of a new football/soccer fields, basketball court, playground, exercise stations and pathways, performing arts amphitheater, restroom/concession building, lighting, and landscaping.

Through community based planning meetings with youth, seniors, and families additional design ideas include:

- Separate playgrounds based on age, and place the playgrounds in a centralized, highly visible area away from streets
- Plant abundance of shade trees and shade structures
- Soccer/football field to include bleachers
- Trail with workout stations around park's perimeter
- Restrooms near heavily used areas.
- Adequate lighting for evening use and safety

Sustainable techniques include:

- Smart irrigation control system
- Permeable pavers, bioswales
- Segregate and recycle construction waste
- 10% recycled materials for construction
- Native plants and trees, excluding invasive plants
- Photo cell roof tiles, low flow water fixtures, and solar powered LED lights

The park is open daily from 6 AM to 10 PM

No fees will be charged for its use
